SUMMARY

Web3 community manager with 3+ years of experience building and scaling Discord/Telegram communities to 20,000+ members. Combines hands-on moderation and engagement strategy with automation systems (GHL, n8n, MEE6) that cut manual workload and improve onboarding, retention, and support response times. Specializes in Discord server setup and management, community management, moderation, and AI-driven automation.

CORE SKILLS

- Community strategy: server architecture, role/permission design, onboarding funnels, engagement campaigns
- Moderation: conflict de-escalation, policy enforcement, raid/spam defense, crisis response
- Automation: n8n workflow design, MEE6 configuration, AI-assisted FAQ/ticket triage
- Platforms: Discord, Telegram, Twitter/X Spaces
- Reporting: growth and engagement metrics, sentiment tracking, retention analysis

EXPERIENCE

Community Manager / Moderator — *Steel Hearts*

Apr 2026 – May 2026

- Built the server from scratch and managed roles, permissions, and moderation
- Grew Discord from 0 to 20,000+ members within 2 weeks
- Configured MEE6 for moderation, leveling, and ticketing

Community Manager — *ChibiZen*

Nov 2025 – Present

- Designed role/permission structure and verification flow for an NFT project community
- Built automations for onboarding, cross-posting, and ticket routing, cutting manual moderation workload by up to 70%
- Configured MEE6 for moderation, leveling, and auto-assigned roles
- Built a path-based progression automation, letting members choose a track and level up accordingly

Community Builder (TEAM) — *Insightblitz*

Oct 2025 – Present

- Built and managed the community server, including moderation and engagement strategy
- Implemented automation workflows to streamline onboarding and member management
- Collaborated with the marketing team to drive community growth and retention across a Web3 growth-marketing agency (\$250M+ raised for clients, 500+ partners)

SELECTED PROJECTS

- ChibiZen — NFT project community; built the server and onboarding flow and automated key processes, reducing member drop-off by 40%.
- Steel Hearts — gaming community; led moderation strategy and automated onboarding, driving a 60% increase in active users.
- Insightblitz — Web3 growth marketing team (Development → GTM → Launch); community and moderation support.
